240422 (appeal ref 6010345) Land to the East of Hereford, South of Ledbury Road (A438), Hereford.

Comments on behalf of Hampton Bishop Parish Council

Thank you for the opportunity to comment on the amended plans.

The Parish Council (PC) have grave concerns in relation to the access to the development from the A438. The PC consider that thought should be given to a roundabout at the entrance as this is a very fast road and the complexity of the commercial traffic to and from Court Farm and the proposed development warrants this consideration.

The cycleways/cyclepaths are at best disingenuous. Around all of the schools, parents park on the footpaths and over cycleways. In addition, residents living on Ledbury Road where the proposed cycleway is to be marked out all park on the road outside their houses and this would render the cycleway unusable.

Ledbury Road is the main road between Hereford and Ledbury, it is likely that when the route is congested due to traffic turning into and out of the development proposed in addition to the commercial traffic, the single track Tidnor Lane, pushing traffic approaching Hereford through Hampton Bishop

Kind Regards

Claire Bradley
